

STACO ENERGY[®] PRODUCTS CO.

Harsh Environments

Staco Energy Products
Has Your Tailored
Solution!

Harsh environments often exclude the use of standard electrical products. We offer cost effective custom arrangements, i.e. Uninterruptable Power Systems (UPS), Voltage Regulators, Power Factor Correction or Active Harmonic Filters.

Staco Energy Products has the capability and expertise to match our Power Protection Products to your exact needs. Our design team will match your specification, including all other commercial, technical, application & environmental requirements, providing your tailored solution.

Product Highlights

- Tailored custom configured for all products & applications
- Modular cabinet-in-row design
- Pre-wired and assembled
- Lower cost to install & ownership
- Front accessible
- Lockable front doors for security
- Self-contained heavy duty air conditioning unit with temperature & humidity control (where applicable)
- NEMA 12/3R hot dipped galvanized steel, primed and painted
- All NEMA ratings for ANY Staco Energy product

Environments:

- Extreme hot/cold climates
- Damp and/or wet
- High humidity
- Corrosive
- Dirt/dust

Service Options

With our ServiStar® program, a wide range of planned maintenance and extended service options are offered to maximize equipment life and reliability of your FirstLine® UPS. Through an extensive network of factory trained professionals you receive:

- Annual Service Plan
- 24/7 Emergency Service
- Preventive Maintenance
- Programs tailored to meet your needs

About Staco Energy Products

Since 1937, customers worldwide have been relying on Staco Energy Products Company to deliver voltage control and power quality solutions tailored to their needs.

As a leading power quality resource, we offer our customers world-class support; from our thorough applications assessment, to our ability to design and deliver a solution that is tailored to the specific needs of our customers; through delivery and commissioning.

Our professional, factory trained service team is in place to ensure that our customers' revenues are protected, and their investment provides them with many years of trouble free operation.

Staco develops total power solutions for OEM and end user applications.
