

Staco Variable Transformers

Staco Variable Transformers meet the following conformance criteria:

Go to http://www.csagroup.org/us/en/services/testing-and-certification/certified-product-listing/certificate/018948_0_000%257C5411-06 for a complete list of compliant products.

RoHS: VT Products of Staco Energy Product Co. are compliant to the materials restrictions of Article 4 of the RoHS Recast (2011/65/EU). VT Products of Staco Energy Product Co. are compliant to the materials restrictions of Article 4 of the RoHS Recast (2011/65/EU). Staco Energy Variable Transformers are not directly in scope of the directive since they are components requiring integration into other products before being used by the end user. However we conducted our own due diligence investigation to ensure that our Variable Transformer line of products do not contain any Restricted Hazardous Substances above the levels specified in Article 4 of Directive 2011/65/EU (RoHS Recast).”

Conflict Materials: As part of our reasonable due diligence, Staco Energy has contacted all part/component vendors within our supply chain to verify their continued compliance with laws and regulations regarding conflict minerals, specifically the Dodd-Frank Wall Street Reform and Consumer Protection Act, Section 1502. Based on the information received we declare that all materials containing Conflict Minerals found in our products are sourced from conflict-free areas.
